

Set the Standards: Health Education in Ohio Advocacy Day 2011

Statewide Health Education Standards for Ohio Schools

Postcard Campaign

As part of the effort to adopt of statewide health education standards, the group is conducting a postcard campaign in order to demonstrate additional grassroots support. Your help is needed!

There are two versions of the postcard – one for the constituents State Representative and one for their State Senator. Please ask folks to fill out one of each. They do not need to fill in their member's name. We'll take care of it. However, it is important that they completely fill in their contact information. We would also love to have a personal message (Why they think this is important!)

The cards will be collected and mailed at a future point to be the most impactful. We'll keep everyone apprised of our efforts and timing! Please send the cards to Cresha Auck, American Heart Association, 5455 N. High Street, Columbus, OH 43214.

Looking for the postcards? Want additional resources? Check out our website at www.setthestandards.wordpress.com!
